Yellowstone Made Mercury's orbit, Saturn not fading. Saturn as our new sun. Mercury will eclipse the old sun:

However - I have re worked the last line as follows using the CELT clues, a more recent development in Triple Method decoding Nostradamus, and the CELT clues read like this for the last line:

Mercury is quicksilver, and the Celt zodiac is Cancer (because Mercury is next to the sun and the sun is Leo)

"l'Arc" was obsolete for Sagittarius, but can just as easily mean the "heavens" or the "canopy" or orbit...

Saturn has the meaning of "chronos" - time itself (also means "the cannibal")

"fenera" - the last French word of this line, (taken from 'fenestra') means "small windows"... and pores

consequently the last line can now read:

Our government and their alphabet agencies have been well aware of the threat since, I would hazard a guess, as long as 2003 *Anna Hayes* when they bombed the sun and began its demise. How else did they know to begin the construction of three artificial suns to make ready for the day they would be needed?

That day came beginning October 2013 and ending January 3rd 2015.

Why else did Nostradamus need to put out coded warnings? These appear in such PDFS as THE MOST IMPORTANT PRESAGE – January 11th 2020 Presage January 3 2015 come true EXPLANATION OF THE PREFIXES June 2020 – from ESTOMACH the Preface came the same words :

I want to extend a personal ThankQ from Carolyn and I directly to the #DigitalSoldiers #KeyboardWarriors, #MidnightRiders & #Anons To our Military and Galactic Alliance behind the scenes at the ready. This letter is directly to the American people, in hopes to reach as many humans left - as you undoubtedly have noticed that we have taken back this country from the grips of the evil Artificial Intelligence COVID-19 Bioweapon deployed by the Democrats allied with the CCP that behind it all were controlled by the slave ship Draconian overlords. In conjunction with our Secret Space Program, Space Force, Militaries & The Galactic Alliance we have defeated our greatest adversaries mankind has ever faced. As we face the EBS & Military Tribunals, I urge all Americans to prepare for Martial Law. There will be active military on the streets at key locations to maintain Governmental powers, during this transitional phase to ensure maximum safety during Operation Warp-speed. These measures are in place for the immediate fallout after the EBS, when the lights go out just know that the White Hats Are In Control. Understand that we faced an evil the likes of which no one has ever seen, because the strings that control the world were inside you (Tugging on the strings of your heart to drain you like a battery) because the truth is a force of nature. In a highly anticipated ruling, the International Court of Justice at The Hague has found that there is a "real and imminent risk" that Israel is committing genocide in Gaza, and supported "at least some" of the provisional measures South Africa had requested when it brought the case in order to rein in Israel's military assault. Though the ruling falls short of calling for an immediate ceasefire, analysts say it is nevertheless a significant milestone. We discuss the "unprecedented" decision by the World Court with a panel of experts: Palestinian human rights attorney Diana Buttu, genocide scholar Raz Segal and scholar of colonialism Mahmood Mamdani. "It becomes imperative upon the world community to now act," says Buttu. "This is the beginning of a process of isolating Israel," adds Segal.

FLANGE-HEADED ANU ARRIVE AT HOLLOMAN AIRFORCE BASE two differing stories

Here is a screen grab from a recent reel which by some strange coincidence has the entities arriving looking like they are meant to be flange-headed Anakim – the same which Putin and Trump have been dealing with since September 2017. The craft portrayed in this reel purporting to be a Holloman Air Force Base arrival sometime in 1954, or 1964, or 1971 and other smoke screen dates such as recent as 1988. The month was April.

And per the usual *flim-flammery*, a correct day, month and year is very difficult to pinpoint on account of the policy of alphabet groups dogged insistence of fooling “all the people all the time” – As Linda Moulten-Howe told us, before she was “turned” by a weekend at the Rockefeller Ranch (see GUNS & DECEPTIONS): “The agencies always have at least five differing stories. Mixing dates and places to...” discredit the public’s own transmission of events. I do have in my earthfiles files going back to her [LMH] beginnings, when I was a paid up subscriber BEFORE SHE WAS GOT AT by Rockefeller ranch.

FLANGE HEADED

* GUNS & DECEPTIONS

The aliens in those files, for this incident, were the Large Nosed (Semetic) Altairans. This is one of those “five different stories with five differing dates and places” that was told to L.M.H. at the Jim Penniston Rendlesham incident.

With several dates for this Holloman Base visit ranging from 1954, 1964 to 1971 and 1975. It was 1964.

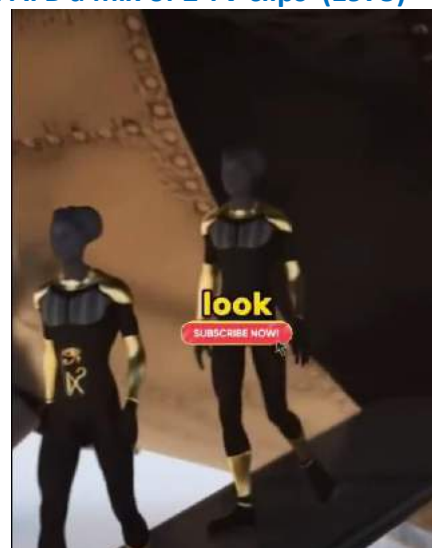

Will put the smokescreen story first: video type in [Landing at Holloman AFB a mix of 2 TV clips \(1975\)](#)

The original description by an eyewitness

These are a form of Grayle. Described by L.M.H. as *genetically engineered by the EBENS* [extra.terrestrial biological entities]. By “EBENS” I think she means SubNasals, the same which are the puppeteers of monarchy, pentagon and vatican. Based on a pyramid society, so aligned with the Orion Group. “The Ebens genetically engineered these Archquloid entities with large noses by ‘rapid-cycle cloning’ and allegedly presented two or more to the U. S. government for observation, examination and study.”

- From transcript of alleged briefing for President Ronald Reagan, March 6 - 8, 1981, regarding “Unidentified Flying Objects and Extraterrestrial Visitation to Earth.” Briefing was by then-CIA Director William Casey.

THESE ARE THOSE FROM ALTAIR

WHAT ARE THE INTELLIGENCE AGENTS GOING TO DO WITH YOU? They tell me when I was at the East Gate with John, they have five different stories to tell. It's important to scramble dates (which confuses and undermines consistency of eyewitness testimonies so no credibility with public and media.)

Undersea images from archaeologist Sarah Parkac
The Mars image shows pyramids that look like they have spent time undersea.

If you seek these images you will notice many have been cropped out so that they can't be counted as four.

WHY is it important to know it is not 3 pyramids everywhere & Giza? Because it is NOT based on Orion's Belt. It is based on a SOUTHERN Hemisphere asterism.

Why do I keep harping on about the FOUR PYRAMIDS which are EVERYWHERE ?

Because it is a ANOTHER case of FOOLING YOU ALL C+F+ANDROMEDA

This is done BY those from the Orion – Free Mason Groups, the Copiests. Why do they fool us with this sleight-of-hand? Because the placement of four is based on Bennu Bird asterism; and Bennu Bird is Thoth – Ningishzidda, the current king of the Anakim & architect of Giza.

Also the backing for President Trump (yes, the current 19th) and for NESARA-GESARA. Albeit a Global assignment. 141 Not "Order" which is a pyramidal reptilian power format.

"The most detailed records referring to the mysterious fourth pyramid of Giza were taken by a Danish explorer named Frederic Norden who had traveled to Egypt to investigate its mysteries at the request of the King of Denmark, Christian VI in 1737. In his detailed book of observations 'Voyage d'Egypte et de Nubie' he says that the pyramid was a striking black color and the material it was constructed from was both darker and harder than granite. On the top of the pyramid was a yellowish kind of stone that he assumed had once been utilized as a pedestal.

It takes the moon 29½ days, by 13 months = 383.5 but the last thing they want to let you know in telling you the truth – is that such a long albeit elliptical orbit would change the Seasons. That would get in the way of their chances of blaming us and our habits (eating beef one of them) for the change in “climate”. By beginning this new calendar in April, Spring, they hope we will not notice a longer spring-summer that will follow. Rather interesting that when GESARA becomes instituted, the January fiscal calendar will no longer be useful. In essence, a reversal of Gregorian.

January 2024 (1348) compare to the j533 image> from the Book of Miracles; 815 years ago, and 30 months before the sun-free 2 years from j536.

j533 to j689/90/Wormwood means a gap of 156 years, 533 to 1348 NOW = 815. Why do Hopi say Red, & Blue kachina

For some years I have not been able to find the time to explore the events which happen *between* our $\leq 7 \geq$ hundredth year visits. Wormwood was January j689 according to Hevelius & Newton. We are in 1348 now so that means that gap/Era was 659 year/orbits. The gap/Era between Crucifixion i79 & j689 = 610 years with me using an event year we know of. Between the first sighting of 54BCE and i79, the mini solar system had been in view for 87 years. This time round 1981 (says NASA) to 2024 = 43 years so it has some decades yet to bother all our planets on its way out. The Destructive invasions are every Fifth Red sun, making *that* the 3,660+ period.

Other “researchers” have come to the conclusion there is 138 years following the Red Kachina events, but I could only find one such gap. There is a need to find the “Mudflood” event date in the 800s,* which I hope to crib time to work on soon. Since the gaps are so divergent already, between the Red and Blue Kachina visits, and not a dependable 138 years at all, I see no hurry for study.

*there is a Flood plaque reminder on a wall in Spain dated 1.883 image later – Spain not being far from the Pyrenees which sent forth those floods. MARUSEK

All we should comprehend is that there IS a visit between the main intrusions – and that none of them are 3,660 years. Especially with our own new orbit of 378 days since October 2013 – for which a “New” “Lunar” 13 month calendar is ready.

One of the secret clues or CUES as Da Vinci calls them; which guide us for this study is Vulcanism; as Steven Guth (R.I.P. dear friend) suggested.

Our planet *reacts* to nearby celestial bodies, and it does so via volcanoes and tectonic plates. The Vulcanism that sent the Greco-Romans packing from the Isles beginning around 412-415, followed by a mystery comet of 496, (i496/julian) that of Hastings, chased by the 533-536 event (Krakatoa) would be a good starting point.

So i412 less i80 ^{1 a.d.} = 332 years, which is close to half way through one Nemesis orbit/Era. With the i496 Hastings “comet” showing its goodbye salvo of 84 years – the length of time it can spend inside our own solar system. Corroborated by a Greco-Roman tapestry dated CCCC [+96].

The CCCC corroborating the date of 400 because by 600 the use of CCCC had been replaced by CD

HERE is a good place to interrupt with a Thought.

The Great Exodus “fire by night” and pillar of “smoke by day” event of ca.1486BCE

WAS the volcano island of Santorini event. Also known as Thera. In which Akrotiri and its wall friezes of Saffron pickers tell us that the Mediterranean was in a cold climate up to 1486BCE

One thousand years was tacked onto our calendars by changing the “i” to a “1” and 324½ years were removed in July i 676 turning that month into a new 1,000A.D. to create a “fiscal” calendar. The difference between the 1000 added and 324 years deducted is 676+ which still needs to be removed from the Anno Domini calendar. This skullduggery was arranged between Constantinople and Rome. The edict involved is kept well hidden. This is why the Vatican knows the Shroud of Turin is real.

JUST FOR A BIT OF RESPITE, as Auntie Bern used to say “we have reach’d Point Recuperation” and pull out her Aladdin Thermos flask of hot chocolate which she always carried on field trips...
 Here, I have E.met Mr. Bill Brown. He who has been quietly hiking Giza with his trusty Ground Penetrating Radar [G.P.R.] seeking anomolies under the grounds of Giza. He began his journey in the same years I did. His finds can never have been “fiddled with” ... nor “adjusted” : as the drivellings of Hawass have been. In this one image we see outlined in yellow, the sky-rune for Othilla.
 Othilla represents Andromeda. The rune refers to “Inheritance”. What one leaves behind for Others. At times this can refer to “karma”... but here, under Giza the inheritance for us is to see the absolute truth! Simply because **NO ONE** can have altered the under-ground design like they did with the above ground fourth pyramid; in order to misrepresent the floor plan as Orion’s Belt. “They” are the free masons.
The positive message comes finally, from Andromeda.

FIX THE CALENDARS

March 22nd 2024 – by now you should be aware that the powers that be have “FIXED” the calendars – in every meaning of the word FIXED, because that is what the NEW INTERNATIONAL FIXED CALENDAR is. Supposed to be a 13 month Lunar calendar with every month having 28 days, done this way so that each

Day of a week is the same as the previous month. Here then it makes 364 days in their new type of Lunar year. They are concentrating on taking the calendar forward to a Spring new year (which is what pope Gregory did away with) hoping you will not notice other things.

A bit strange when it takes 29½ days for the moon to complete its orbit, and 13 months of 29 days equals 377. All they had to do was add one day to each month of the 12 month calendar. Problem with that then would be matching the Seasons, the same problem for Julius Caesar, for Pope Gregory, and Prince Otto (soon to be Emperor in j676) –

Last I heard in 2017, our new orbit was 377.8 days, but they certainly do not want you to see that. Because you would be asking “why” and they do not want you to know why. Otherwise they can’t push their “climate change” scare, blaming you for those changes and herding you into tight controlled and more taxable living conditions. Crashing into bridges is another form of this mustering.

By now, some seven years after 2017, our orbit is likely a few more days. So, they blithely ignore the “small stuff”, of which there are a few to be sorted. In the same way I blithely ignored the point 8 of a day, (in our orbit) and the point 5 of a day... in the moon’s orbit.

A Moon cycle is the length of time it takes the Moon to revolve once around the Earth.

A complete lunar cycle lasts 29.5 days.

Some people may tell you that it’s more like 27 days, which is true. This IS how long it takes for the Moon to cycle once around Earth. BUT because the Earth has moved along just a little on her orbit around the Sun, She needs to travel for just over two more days to reach the same relative position once again.

To create this 13 month “Lunar” calendar – they also blithely ignored the real moon’s orbit, of 29½ days. Or do they also know the current moon is now the old moon and will be absent in an oppositional orbit, replaced by a new one arranged by the Sphere Alliances of the Living Library. Doing the switch right now. For a while the old moons hologram will remain until the kabal is truly gone. The new moon is blue.

There is an idiotic mème going around the traps that Earth was destroyed in 2012 and we are simply in a matrix copy. If that were the case, then why the Mandela Effect – where some folk still retain former memories and some do not? If that were the case, then why is there such a focussed attempt to destroy the Earth now? Had they done so in 2012 – why continue chemtrails, magnetic fields alterations, oceanic nuclear holocaust etc? Besides, 2012 was not yet 2012! Earth was not destroyed. It was saved...

There actually was a threat to Earth in December of « 2012 », the asteroid Toutatis/Teutatis. It was deflected.

To put things in perspective. Our Atmosphere, where yellow is Nitrogen, blue is Oxygen, red is Argon, and green is carbon dioxide. The little white dot you can hardly make out in the upper right corner is carbon dioxide produced by human activities, while the rest of the green is naturally occurring carbon dioxide.

Don't tell me we have to change our way of life and get into all kinds of hardship to minimally change what amounts to 0,0016 % of the atmosphere, the human activity produced CO2.

First I googled DISTANCE AROUND AFRICA BY SHIP
And was told **15,000 miles**
Then I asked for Distance from Downton Abbey Yorkshire to London, and was shown **5736 klm.**
The trip around **Australia** according to google is **16,000 miles**, making it larger than Africa.
Asking google **about doses**: according to them the human protocol dose for Fenbendazole is 220ml per day, when a horse only needs 20ml.
Google says:
Giza still has only 3 pyramids, even though the fourth and its causeway were found February 2019.
Naturally that means according to google, that Giza was designed on Orion's Belt app. 4,500 years ago.
Except we are only in 1348, and 2250 BCE plus 1348 = 3598 years ago. When the causeways were need'd
In reality: Add 10,390 BCE (Leo Rising) to 1,348. C.E.
If you ask Alexa, she will tell you the year 2024 has not arrived yet, THEN she will tell you "there is no need to keep a copy of this".

Trees store carbon in their branches, stems, leaves, bark and roots. As trees grow, they remove carbon dioxide from the atmosphere through photosynthesis and convert this into carbon to make wood. When wood rots or is destroyed (such as by fire) the carbon is returned to the air.

NOT CARBON "RETURNED". = OXYGEN

Not once did the word OXYGEN get a mention, especially when the leaves release MORE OXYGEN NOT CARBON INTO THE AIR from MORE CO2, AND NO CARBON IS RELEASED

Nostradamus Uses Interstellar Travel to Predict Future

Keeping in mind that *i 566* was before *i 583*, at which date in January pope Gregorius used the Roman numeral *i* (as in *i,ii,ij*): thereby adding 1000 years at the stroke of a plume. Interesting that standing in *1566* the person engraving the date used a prefix that may have been a form of *j*. That would be correct because the letter *j* was introduced in *i524*. The *i* prefix for *ulus/julus*. The *J* at the time in Europe also meant *jahre* for 'year'. A *j* or *J* as a prefix never meant *Jesus*.

"Ha" is Dubnium, but also could be Hafnium here (Hf) Hafnium is a good absorber of neutrons and is used in the control rods of nuclear reactors. Hafnium is also used in vacuum tubes as a getter, a material that combines with and removes trace gases from vacuum tubes. Hafnium has been used as an alloying agent in iron, titanium, niobium and other metals. 'Dubnium is named for the Russian town Dubna. The most stable known transactinoid isotope, with a half-life of just over one day' www.rsc.org/periodic-table/element/105/dubnium

"Theoretical research establishes dubnium as a member of group 5 in the 6d series of transition metals, placing it under vanadium, niobium, and tantalum. Dubnium should share most properties, such as its valence electron configuration and having a dominant +5 oxidation state, with the other group 5 elements; however, it should display a few anomalies due to relativistic effects. Limited investigation of dubnium chemistry has confirmed this assignment. Solution chemistry experiments have revealed that 105 dubnium often behaves more like niobium rather than tantalum, breaking the [exothermal] periodic trends."

The above research was gained from a polyglot including some from *illuminati-google-owned* Wikipedia, which states a contra-diction to the others:

"Dubnium, having an atomic number of 105, is a superheavy element; like all elements with such high atomic numbers, it is very unstable. The most stable known isotope of dubnium, 268Db, has a half-life of around a day.^[27] IT seems it has more than one numeric weight property, known variously as Dubnium 260, 262.1138, Db 267 & 268 Dubnium can only be obtained by artificial production."^[b]

Note: The Patent using the word SOUL precludes others from doing so From my own observations ...
 It is not true that the Soul rests within the brain.
 The Spirit of the person's personality may do, but not the Soul.
 There are many CCTV hospital images showing the Soul leaving the Heart area of a corpse, some time after death.
 The Soul has even been weighed in the corpse, before & after the 36 hrs.
 As has the brain, which remains stable in that weighing.

6 59 3 SERBIAN BASIN IS ALIVE – from Milan “dormant” Montalbo to Etna, Stromboli and Vesuvius; this caldera sits under all the Adriatic Sea as the Serbian Basin Supervolcano.

“An Italian **supervolcano** is showing signs of reawakening, with any eruption potentially affecting half a million people, scientists say. The volcano is located across the Bay of Naples from the famous Vesuvius, which saw one of the most destructive eruptions in history.

Campi Flegrei, or the **Phlegraean Fields**, is a large volcanic area located in the metropolitan area of Naples, one of the most densely-inhabited areas in the world, with over 3 million people. The **13km-wide*** ‘caldera’, a large cauldron-like depression, lies mostly underwater and has 24 craters and volcanic edifices.

***The scientists are still keeping the real size of this supervolcano a secret from the people**

A recent study led by Italian and French scientists from the National Institute of Geophysics and Volcanology in Bologna states that, “Of the several quiescent calderas worldwide, Campi Flegrei has recently shown the clearest signs of unrest.”

The research was [released](#) on Tuesday in the journal Nature Communications.

The [study](#) says that there is a certain threshold beyond which magma could trigger the release of fluids and gases at an increased rate.

“Hydrothermal rocks, if heated, can ultimately lose their mechanical resistance, causing acceleration towards critical conditions,” Giovanni Chiodini, a researcher, told AFP.

It’s not clear exactly if or when the volcano will erupt, according to Chiodini, but if it does, it “would be very dangerous” for the local population.

The dense population at risk “highlights the urgency of obtaining a better understanding of Campi Flegrei’s behavior,” Chiodini added.

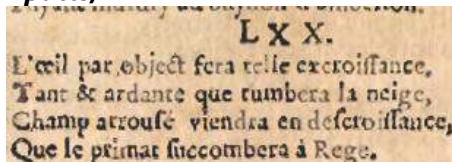

The last eruption of the supervolcano took place back in **1538,*** but was much smaller in scale. The blast did, however, create a new hill – Monte Nuovo.

- * i.538 as a consequence of the Blue Kachina – which caused the i.536 2 years of darkness (preceded by a plague) and set of part of Krakatoa.

Since 2005 scientists have been detecting an increase of low-level activity and heating, as well as ground and magma deformation in the area.

In 2012 the status of the volcano was changed from ‘green’ (quiet) to ‘yellow’ (scientific attention).

“These areas can give rise to the only eruptions that can have global catastrophic effects comparable to major meteorite impacts,” [Giuseppe De Natale, head of a project to monitor the volcano, told Reuters back in 2012.](#)

2016 OVATION From Michel Lee

Miss Helen Parks, Its so nice seeing your posts again after so many years. I must have been on your mailing list all these
years, because i always got emails from your studies. To all my friends. This is without a doubt 1 of the smartest people I
have ever know in my life, or on this planet. I cant remember how we met on here, most likely in a group. I was talking to

1 of another 1 of the smartest people I know **Rick Whitt** about you. then you pop up. People I used to just read her post for a while before we spoke, I would always look up what she posted to see if what she was speaking on, to see if it was right, Always was. Then we began speaking, and I hate to say it lol lol Sorry **Helen Parks**. but I would research things through out my day things to question you about. lol . and without hesitation you had the right answer, I remember telling **Rick Whitt** and a few others, that I thought there was no way you could be from this earth, & was serious about it.

People, this lady has devoted all the years and assuming all her life, informing people what is really going on in the world to anyone that wanted to listen, and was never wrong. BTW the question I asked you about the Black Knight Satellite and without hesitation you never skipped a beat about it, is what made me tell people I didnt think you came from this earth.

But thats what hooked me. I read everything you wrote, after that. until facebook turned my brain to mush, pretty much, but I have been reading them almost everyday since we been back ons friends list. I just want to say thank you for all you do. You are 1 of the few people in this world I look up too..

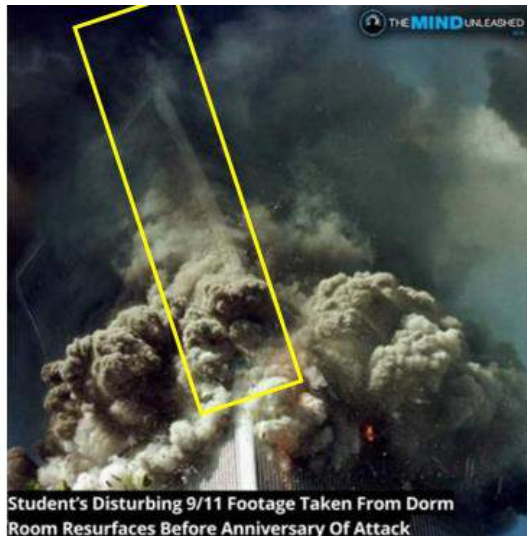

Michel Lee P.S.

And still to this day I have not figured out how you knew so much down to the detail of the Black Knight.

Helen Parks Jackie Kleeb it is sooo lovely to be appreciated - even if by just one handful of fellow humans!

Thank you so much Mr. **Michel Lee** for your ovation! The Black Knight clues are in 1 10.

Such different thinking from the usual daily castigations received on facebook ...
